There have been no material changes to our policies since that filing.

The accompanying condensed consolidated balance sheet at December 31, 2019 has been derived from the audited consolidated financial statements at that date. We assume that users of these condensed consolidated financial statements have read or have access to the audited December 31, 2019 consolidated financial statements contained in our Annual Report on Form 10-K for the year ended December 31, 2019 filed with the SEC on March 25, 2020 and that the adequacy of additional disclosure needed for a fair presentation, except in regard to material contingencies, may be determined in that context. Accordingly, footnotes and other disclosures which would substantially duplicate those in the consolidated financial statements contained in our most recent Annual Report on Form 10-K for the year ended December 31, 2019 have been omitted in this report.

Principles of Consolidation and Basis of Presentation

Recently Issued Accounting Pronouncements

In January 2020, the Financial Accounting Standards Board issued Accounting Standard Update ("ASU") 2020-01 to clarify the interaction among the accounting standards for equity securities, equity method investments and certain derivatives. The new ASU clarifies that a company should consider observable transactions that require a company to either apply or discontinue the equity method of accounting under Topic 323, Investments—Equity Method and Joint Ventures, for the purposes of applying the measurement alternative in accordance with Topic 321 immediately before applying or upon discontinuing the equity method. For public business entities, the amendments in this ASU are effective for fiscal years beginning after December 15, 2020, and interim periods within those fiscal years. The Company is currently evaluating the effect that implementation of the new standard will have on its financial position.

Recently Adopted Accounting Pronouncements

In June 2016, the FASB issued ASU 2016-13, Financial Instruments—Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments ("ASU 2016-13"). ASU 2016-13 requires that a financial asset (or a group of financial assets) measured at amortized cost basis be presented at the net amount expected to be collected. The allowance for credit losses is a valuation account that is deducted from the amortized cost basis of the financial asset(s) to present the net carrying value at the amount expected to be collected on the financial asset. The amendments in ASU 2016-13 are an improvement because they eliminate the probable initial recognition threshold under current GAAP and, instead, reflect an entity's current estimate of all expected credit losses. Previously, when credit losses were measured under GAAP, an entity generally only considered past events and current conditions in measuring the incurred loss. In November 2018, the FASB issued ASU 2018-19, Codification Improvements to Topic 326, Financial Instruments—Credit Losses ("ASU 2018-19"), which amends ASU 2016-13 to clarify that receivables arising from operating leases are not within the scope of Subtopic 326-20, and instead, impairment of such receivables should be accounted for in accordance with ASU 2016-02, Leases, as amended by subsequent ASUs ("Topic 842"). In November 2019, the FASB issued ASU 2019-11, Codification Improvements to Topic 326, Financial Instruments—Credit Losses ("ASU 2019-11"), which amends ASU 2016-13 to clarify or address stakeholders' specific issues about certain aspects of ASU 2016-13. ASU 2016-13, ASU 2018-19 and ASU 2019-11 are effective for fiscal years and interim periods within those years beginning after December 15, 2019, with early adoption permitted as of the fiscal years beginning after December 15, 2018. The Company adopted ASU 2016-13, ASU 2018-19 and ASU 2019-11 (collectively, "Topic 326") on January 1, 2020. The adoption of the new standard on January 1, 2020 did not have a material effect on the Company's financial position, results of operations, or cash flows.

Coronavirus (COVID-19)

Since first being reported in December 2019, COVID-19 has spread globally, including to every state in the United States and more than 175 countries. On March 11, 2020, the World Health Organization declared COVID-19 a pandemic, and on March 13, 2020, the United States declared a national emergency with respect to COVID-19. The outbreak has led governments and other authorities around the world, including federal, state and local authorities in the United States, to impose measures intended to control its spread, including restrictions on freedom of movement and business operations such as travel bans, border closings, business closures, quarantines and shelter-in-place orders. The COVID-19 pandemic and measures to prevent its spread are expected to negatively impact senior housing and skilled nursing facilities in a number of ways, including but not limited to:

- Decreased occupancy and increased operating costs for the Company’s tenants and borrowers, which may adversely impact their ability to make full and timely rental and debt payments to the Company. In some cases, the Company may have to restructure tenants’ long-term rent obligations and may not be able to do so on terms that are as favorable to the Company as those currently in place. Reduced or modified rental and debt amounts could result in the determination that the full amounts of the Company’s real estate properties and notes receivable are not recoverable, which could result in an impairment charge.
- Decreased occupancy and increased operating costs for the Company’s Equity-Method Investments as they own senior housing and skilled nursing facilities which may negatively impact the operating results of these investments. In some cases, the Equity-Method Investments may have to restructure tenants’ long-term rent obligations and may not be able to do so on terms that are as favorable to the Equity-Method Investments as those currently in place. Prolonged deterioration in the operating results for these investments could result in the determination that the full amounts of the Company’s investments are not recoverable, which could result in an impairment charge.

It is impossible to predict the effect and ultimate impact of the COVID-19 pandemic on our operations and results as the situation is rapidly evolving. While we have not seen a material impact on rental revenue from any of our consolidated properties or debt payments from borrowers on notes receivable, or the operating results of our Equity-Method Investments for the period ended June 30, 2020, we are currently working with one tenant to address a partial rent payment default as a result of a material decrease in occupancy at the facility due to COVID-19. Based upon need and request, the Company may provide rent relief, either in the form of a temporary rent reduction to be paid back over time or permanent abatement of rent for a specific time period. Additionally, some of our Equity-Method Investment tenants have also experienced decreased occupancy and increased operating costs related to COVID-19, however, this has not had a material effect on our condensed consolidated financial statements. The rapid development and fluidity of this situation precludes any prediction as to the ultimate material adverse impact on the demand for senior housing and skilled nursing and presents material uncertainty and risk with respect to our business, operations, financial condition and liquidity, including recording impairments, lease modifications and credit losses associated with notes receivable in future periods.

CARES Act

On March 27, 2020, the President signed into law the Coronavirus Aid, Relief, and Economic Security Act (the “CARES Act”). The CARES Act is a stimulus package that provides various forms of relief through, among other things, grants, loans and tax incentives to certain businesses and individuals. In particular, the CARES Act created an emergency lending facility known as the Paycheck Protection Program (PPP), which is administered by the Small Business Administration (SBA) and provides federally insured and, in some cases, forgivable loans to certain, eligible businesses so that those businesses can continue to cover certain of their near-term operating expenses and retain employees. We did not obtain a PPP loan. We have evaluated the CARES Act and determined that there was no impact on the Company for the six months ended June 30, 2020. We will continue to evaluate and monitor the CARES Act, and any new COVID-19-related legislation to determine the ultimate impact and benefits, if any, to the Company.

The following information describes our loan activity for 2020 and 2019:

CIBC Bank USA

In March 2019, CHP Friendswood SNF, LLC entered into a $10,725,000, three-year term loan and security agreement with CIBC Bank USA, which was collateralized by the Friendship Haven facility. On April 23, 2020, we refinanced the existing CIBC loan with an ORIX Real Estate Capital, LLC ("ORIX") HUD-insured loan. See below under ORIX Real Estate Capital, LLC for further information

Capital One Multifamily Finance, LLC

In September 2019, we refinanced our Capital One loan and entered into a HUD-insured loan with Capital One Multifamily Finance, LLC which is collateralized by the Pennington Gardens facility. The note contains a prepayment penalty of 10% in year 1, which reduces each year by 100 basis points, until there is no longer a prepayment penalty beginning in year 11.

See table above listing loans payable for further information.

ORIX Real Estate Capital, LLC

We have several properties with HUD-insured loans from ORIX. See table above listing loans payable for further information.

On April 23, 2020, we refinanced our outstanding $10,725,000 loan payable for CHP Friendswood, LLC with a HUD-insured loan through ORIX. The loan bears interest at a fixed rate of 2.79%, plus 0.65% for mortgage insurance premiums for the term of the loan and is collateralized by Friendship Haven. The loan matures in April 2055 and amortizes over 35 years. The loan proceeds of approximately $11.9 million were used to pay down the outstanding loan balance of approximately $10.8 million to CIBC, to fund certain HUD reserves and to pay debt issuance costs of approximately $0.7 million. The note contains a prepayment penalty of 10% in year 1, which reduces each year by 100 basis points, until there is no longer a prepayment penalty beginning in year 11.

In April 2019, we entered into the HUD-insured loan through ORIX of approximately $3.8 million, which is collateralized by the Sundial Assisted Living facility. The loan bears interest at a fixed rate of 4.2%, plus 0.65% for mortgage insurance premiums, for the term of the loan. The loan matures in April 2054 and amortizes over 35 years. We incurred approximately $0.2 million in debt issuance costs. The note contains a prepayment penalty of 10% in year 1, which reduces each year by 100 basis points, until there is no longer a prepayment penalty beginning in year 11.

All of the HUD-insured loans are subject to customary representations, warranties and ongoing covenants and agreements with respect to the operation of the facilities, including the provision for certain maintenance and other reserve accounts for property tax, insurance, and capital expenditures, with respect to the facilities all as described in the HUD agreements. These reserves are included in restricted cash in our condensed consolidated balance sheets. As of June 30, 2020, we were in compliance with all of our debt covenants.

Acquisition and Asset Management Fees

We serve as the manager or operating member of our Equity-Method Investments and provide management services in exchange for fees and reimbursements. As the manager or operating member, we are paid an acquisition fee, as defined in the applicable joint venture agreements. Additionally, as the manager or operating member, we are paid an annual asset management fee for managing the properties held by our Equity-Method Investments, as defined in the applicable joint venture agreements. For the three months ended June 30, 2020 and 2019, we recorded approximately $0.3 million and $0.3 million, respectively, in acquisition and asset management fees from our Equity-Method Investments. For the six months ended June 30, 2020 and 2019, we recorded approximately $0.6 million and $0.5 million, respectively, in acquisition and asset management fees from our Equity-Method Investments.

6. Receivables

Notes Receivable

Friendswood TRS Note

The Operating Partnership entered into an amended and restated promissory note dated January 1, 2019, with Friendswood TRS for approximately $1.1 million. The note does not bear interest and is due in 48 equal payments of approximately $22,000. We recorded a discount of approximately $95,000 on the note using an imputed interest rate of 4.25%. As of June 30, 2020 and December 31, 2019, the balance on the note was approximately $0.4 million and $0.5 million, respectively.

Tenant and Other Receivables, Net

Tenant and other receivables, net consists of:

	June 30, 2020	December 31, 2019
Straight-line rent receivables	$ 2,671,000	$ 2,546,000
Distribution receivables from Equity-Method Investments	632,000	643,000
Receivable from JV 2 properties	184,000	184,000
Asset management fees	322,000	430,000
Other receivables	46,000	9,000
Total	$ 3,855,000	$ 3,812,000

The allowance for credit losses on accounts receivable is maintained at a level believed adequate to absorb potential losses in our receivables. The determination of the credit allowance is based on a quarterly evaluation of each of these receivables, including general economic conditions and estimated collectability. We evaluate the collectability of our receivables based on a combination of credit quality indicators, including, but not limited to, payment status, historical charge-offs, and financial strength of the lessee or equity method investment. A receivable is considered to have deteriorated in credit quality when, based on current information and events, it is probable that we will be unable to collect all amounts due. As of June 30, 2020, the allowance for credit losses is immaterial.

7. Related Party Transactions

CRA

Prior to the termination of our advisory agreement on April 1, 2014 with CRA (our former advisor, a related party), we incurred costs related to fees paid and costs reimbursed for services rendered to us by CRA through September 30, 2014. Some of the fees we had paid to CRA were considered to be in excess of allowed amounts and, therefore, CRA was required to reimburse us for the amount of the excess costs we paid to them. As of June 30, 2020 and December 31, 2019, the receivables from CRA are fully reserved due to the uncertainty of collectability and are included in tenant and other receivables in our condensed consolidated balance sheets (see Note 10).

As of June 30, 2020 and December 31, 2019, we had the following receivables and reserves related to CRA:

	Receivables	Reserves	Balance
Organizational and offering costs	$ 738,000	$ (738,000)	$ -
Asset management fees and expenses	32,000	(32,000)	-
Operating expenses (direct and indirect)	189,000	(189,000)	-
Operating expenses (2%/25% Test)	1,717,000	(1,717,000)	-
Total	$ 2,676,000	$ (2,676,000)	$ -

Equity-Method Investments

See Notes 5 and 6 for further discussion of distributions and acquisition and asset management fees related to our Equity-Method Investments.

8. Concentration of Risk

Our cash is generally invested in short-term money market instruments. As of June 30, 2020, we had cash and cash equivalent accounts in excess of FDIC-insured limits. However, we do not believe the risk associated with this excess is significant.

As of June 30, 2020, we owned one property in California, three properties in Oregon, one property in Texas, one property in Illinois, and one property in Arizona (excluding the 50 properties held by our Equity-Method Investments). Accordingly, there is a geographic concentration of risk subject to economic conditions in certain states.

Additionally, for the three months ended June 30, 2020, we leased our seven real estate properties to five different tenants under long-term triple net leases, and four of the five tenants each represented rental revenue greater than 10% (35%, 24%, 19% and 15%). For the three months ended June 30, 2019, we leased our seven real estate properties to five different tenants under long-term triple net leases, and four of the five tenants each represented rental revenue greater than 10% (35%, 24%, 19% and 15%).

For the six months ended June 30, 2020, we leased our seven real estate properties to five different tenants under long-term triple net leases, and four of the five tenants each represented rental revenue greater than 10% (35%, 24%, 20% and 15%). For the six months ended June 30, 2019, we leased our seven healthcare properties to five different tenants under long-term triple net leases, and four of the five tenants each represented rental revenue greater than 10% (35%, 24%, 19% and 15%).

As of June 30, 2020, we have one tenant that constitutes a significant asset concentration, as the net assets of the tenant are approximately 20% of our total assets.

9. Fair Value Measurements of Financial Instruments

Our condensed consolidated balance sheets include the following financial instruments: cash and cash equivalents, restricted cash, notes receivable, tenant and other receivables, certain other assets, accounts payable and accrued liabilities, security deposits and loans payable. With the exception of the loans payable discussed below, we consider the carrying values to approximate fair value for such financial instruments because of the short period of time between origination of the instruments and their expected payment.

As of June 30, 2020 and December 31, 2019, the fair value of loans payable was $53.3 million and $47.4 million, compared to the principal balance (excluding debt discount) of $47.7 million and $47.0 million, respectively. The fair value of loans payable was estimated using lending rates available to us for financial instruments with similar terms and maturities. To estimate fair value as of June 30, 2020, we utilized discount rates ranging from 2.8% to 4.2% and a weighted average discount rate of 2.8%. As the inputs to our valuation estimate are neither observable in nor supported by market activity, our loans payable are classified as Level 3 liability within the fair value hierarchy.

As a result of our ongoing analysis for potential impairment of our investments in real estate, we may be required to adjust the carrying value of certain assets to their estimated fair values, or estimated fair value less selling costs, under certain circumstances. No impairments were recorded during the three and six months ended June 30, 2020 and 2019.

At June 30, 2020 and December 31, 2019, we do not have any financial assets or financial liabilities that are measured at fair value on a recurring basis in our condensed consolidated financial statements.

10. Commitments and Contingencies

We inspect our properties under a Phase I assessment for the presence of hazardous or toxic substances. While there can be no assurance that a material environmental liability does not exist, we are not currently aware of any environmental liability with respect to the properties that would have a material effect on our consolidated financial condition, results of operations and cash flows. Further, we are not aware of any environmental liability or any unasserted claim or assessment with respect to an environmental liability that we believe would require additional disclosure or the recording of a loss contingency.

Our commitments and contingencies include the usual obligations of real estate owners and licensed operators in the normal course of business. In the opinion of management, these matters are not expected to have a material impact on our consolidated financial condition, results of operations and cash flows. We are also subject to contingent losses resulting from litigation against the Company.

Legal Proceedings

On April 1, 2014, CRA and Cornerstone Ventures, Inc. filed a complaint in the Superior Court of California for the County of Orange-Central Justice Center, Case No. 30-2014-00714004-CU-BT-CJC, naming the Company, its former directors, one of its officers and one of its former officers as defendants, seeking declaratory and injunctive relief and compensatory and punitive damages. On September 17, 2014, we filed a First Amended Cross-Complaint seeking compensatory damages and an accounting pursuant to Sections 10(c)(i) and 17(c)(ii) of the Advisory Agreement and including any monies Plaintiffs and Terry Roussel directly or indirectly received from or paid to the Company. On February 22, 2018, the action was assigned to a different trial judge. On May 29, 2018, the Company filed a motion for terminating and monetary sanctions against CRA, Cornerstone Ventures, Inc. and their counsel, Winget Spadafora & Schwartzberg. On November 30, 2018, the new trial judge vacated the trial date, pending resolution of the Company's motion for terminating and monetary sanctions against CRA and Cornerstone Ventures, Inc. and denied the Company's motion for sanctions against Winget Spadafora & Schwartzberg. On February 13, 2019, the trial judge held another hearing on the Company's motion for terminating and monetary sanctions and indicated that it intended to grant the Company's motion for terminating sanctions and award the Company monetary sanctions. On March 14, 2019, the Court entered an Order and Judgment granting the Company's motion for terminating sanctions, awarding the Company monetary sanctions in the amount of $588,672, and dismissing CRA and Cornerstone Ventures Inc.'s Complaint with prejudice. On May 21, 2019, CRA and Cornerstone Ventures, Inc. filed a notice of appeal from the Judgment and, on June 3, 2019, the Company filed a notice of cross-appeal from the Judgment. On July 9, 2019, the California Court of Appeal, Fourth District dismissed CRA and Cornerstone Ventures, Inc.'s appeal with prejudice. The briefing to the Court of Appeal, Fourth District on the Company's appeals against CRA, Cornerstone Ventures, Inc and Winget Spadafora & Schwartzberg was completed on April 27, 2020, and on April 28, 2020, the Company filed its request for oral argument on its appeals.

In September 2015, a bankruptcy petition was filed against Healthcare Real Estate Partners, LLC ("HCRE") by the investors in Healthcare Real Estate Fund, LLC and Healthcare Real Estate Qualified Purchasers Fund, LLC (collectively, the "Funds"). HCRE did not timely respond to the involuntary petition and the Bankruptcy Court entered an Order of Relief making HCRE a debtor in bankruptcy. As a result, HCRE was removed as manager under the Funds' operating agreement. Thereafter the Company became the manager of the Funds and purchased the investors' interests in the Funds for approximately $0.9 million. Following the subsequent dismissal of the involuntary bankruptcy petition filed against it, HCRE filed a motion for attorneys' fees and damages and a separate complaint for violation of the automatic stay against the petitioning creditors and the Company in the United States Bankruptcy Court of the District of Delaware. The Bankruptcy Court granted a motion to dismiss the complaint for violation of the automatic stay filed jointly by the petitioning creditors and us, and dismissed the complaint with prejudice. HCRE appealed the Bankruptcy Court's decision to the United States District Court for the District of Delaware which affirmed the Bankruptcy Court's dismissal of the complaint in a decision dated September 9, 2018. On October 11, 2018, HCRE appealed the District Court's decision affirming the Bankruptcy Court's dismissal of the complaint to the United States Court of Appeals for the Third Circuit. On October 22, 2019, the Third Circuit granted HCRE's appeal, reversing the District Court and holding that HCRE could assert the adversary complaint seeking damages for violation of the automatic stay. The Company filed a Petition for Rehearing on November 5, 2019 asserting that HCRE is not entitled to assert a claim for damages for violation of the automatic stay. This Petition was denied and the mandate was issued sending the matter back to the Bankruptcy Court. The Bankruptcy Court has not taken any action on the matter since the Third Circuit remanded the case. We believe that all of HCRE's remaining alleged claims are without merit and will vigorously defend ourselves.

Indemnification and Employment Agreements

We have entered into indemnification agreements with certain of our executive officers and directors which indemnify them against all judgments, penalties, fines and amounts paid in settlement and all expenses actually and reasonably incurred by him or her in connection with any proceeding. Additionally, effective October 1, 2018, we amended our employment agreements with our executive officers to extend the term of each agreement for an additional three years. These employment agreements include customary terms relating to salary, bonus, position, duties and benefits (including eligibility for equity compensation), as well as a cash payment following a change in control of the Company, as defined in such agreements.

Management of our Equity-Method Investments

As the manager of our Equity-Method Investments, we are responsible for managing the day-to-day operations and are, thus, subject to contingencies that may arise in the normal course of their operations. Additionally, we could be subject to a capital call from our Equity-Method Investments.

11. Equity

Share-Based Compensation Plan

Upon the grant of stock options, we determine the exercise price by using our estimated per-share value, which is calculated by aggregating the estimated fair value of our investments in real estate and the estimated fair value of our other assets, subtracting the book value of our liabilities, utilizing a discount for the fact that the shares are not currently traded on a national securities exchange and a lack of a control premium, and divided by the total by the number of our common shares outstanding at the time the options were granted.

The fair value of each grant is estimated on the date of grant using the Black-Scholes option-pricing model. Assumptions required by the model include the risk-free interest rate, the expected life of the options, the expected stock price volatility over the expected life of the options, and the expected distribution yield. Compensation expense for employee stock options is recognized ratably over the vesting term. The expected life of the options was based on the simplified method as we do not have sufficient historical exercise data. The risk-free interest rate was based on the U.S. Treasury yield curve at the date of grant with maturity dates approximating the expected term of the options at the date of grant. Volatility was based on historical volatility of the stock prices for a sample of publicly traded companies with risk profiles similar to ours. The valuation model applied in this calculation utilizes highly subjective assumptions that could potentially change over time, including the expected stock price volatility and the expected life of an option.

On January 1, 2020, the Compensation Committee of the Board of Directors approved the issuance of 45,000 stock options under our Summit Healthcare REIT, Inc. 2015 Omnibus Incentive Plan (“Incentive Plan”) to our non-executive employees. The stock options vest monthly beginning on February 1, 2020 and continuing over a three-year period through January 1, 2023. The options expire 10 years from the grant date. The weighted-average fair value per share of the stock options granted was $0.57.

The estimated fair value using the Black-Scholes option-pricing model with the following weighted average assumptions:

	2020
Stock options granted	45,000
Expected volatility	22.31%
Expected term	5.75 years
Risk-free interest rate	1.72%
Dividend yield	0%
Fair value per share	$0.57

The following table summarizes our stock options as of June 30, 2020:

	Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value
Options outstanding at January 1, 2020	1,826,908	$ 2.09		
Granted	45,000	2.26

Options outstanding at June 30, 2020	1,871,908	$ 2.09	7.32	$ 1,375,000
Options exercisable at June 30, 2020	1,599,083	$ 2.06	7.08	$ 1,221,000

For our outstanding non-vested options as of June 30, 2020, the weighted average grant date fair value per share was $0.56. As of June 30, 2020, we have unrecognized stock-based compensation expense related to unvested stock options, net of forfeitures, which is expected to be recognized as follows:

Years Ending December 31,	
July 1, 2020 to December 31, 2020	$ 71,000
2021	66,000
2022	15,000
2022	1,000
	$ 153,000

The stock-based compensation expense reported for the three months ended June 30, 2020 and 2019 was approximately $38,000 and $81,000, respectively, and is included in general and administrative expense in the condensed consolidated statements of operations. The stock-based compensation expense reported for the six months ended June 30, 2020 and 2019 was approximately $80,000 and $149,000, respectively, and is included in general and administrative expense in the condensed consolidated statements of operations.

13. Dispositions

Sale of Four North Carolina Properties

On February 14, 2019, our wholly-owned subsidiaries HP Shelby, LLC, HP Hamlet, LLC, HP Carteret, LLC, and our 95%-owned subsidiary, HP Winston-Salem, LLC, sold to Agemark Acquisition, LLC the following four properties located in North Carolina ("NC Properties"): The Shelby House, an assisted living facility located in Shelby, North Carolina; The Hamlet House, an assisted living facility located in Hamlet, North Carolina, The Carteret House, an assisted living facility located in Newport, North Carolina and Danby House, an assisted living and memory care facility located in Winston-Salem, North Carolina.

The total consideration received by the Company and its subsidiaries pursuant to that sale was $27.0 million in cash. The Company incurred approximately $1.2 million is transaction costs, mainly for the prepayment penalty related to the HUD-insured loans (the "HUD Loans"). On the date of the sale, the total assets of the NC Properties were approximately $22.1 million, and liabilities were approximately $19.5 million, including approximately $19.4 million of outstanding principal on the HUD Loans. The HUD Loans were paid off in full using the proceeds of the sale. As a result of the sale, as of February 15, 2019, the NC Properties are no longer included in our condensed consolidated financial statements.

During the period ended June 30, 2019, we recorded a gain of approximately $4.2 million on the sale of the NC Properties.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following "Management's Discussion and Analysis of Financial Condition and Results of Operations" should be read in conjunction with our unaudited condensed consolidated financial statements and notes thereto contained elsewhere in this report. This section contains forward-looking statements, including estimates, projections, statements relating to our business plans, objectives and expected operating results, and the assumptions upon which those statements are based. These forward-looking statements generally are identified by the words "believes," "project," "expects," "anticipates," "estimates," "intends," "strategy," "plan," "may," "will," "would," "will be," "will continue," "will likely result," and similar expressions. Forward-looking statements are based on current expectations and assumptions that are subject to numerous risks and uncertainties which may cause actual results to differ materially from the forward-looking statements. Forward-looking statements that were true at the time made may ultimately prove to be incorrect or false. We undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise. All forward-looking statements should be read in light of the risks identified in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2019 filed with the U.S. Securities and Exchange Commission (the "SEC") on March 25, 2020.

Overview

As of June 30, 2020, our ownership interests in our seven real estate properties of senior housing facilities was as follows: 100% ownership of three properties and a 95.3% interest in four properties in a consolidated joint venture, Cornerstone Healthcare Partners LLC. Additionally, we have a 10% interest in an unconsolidated equity-method investment that owns 17 properties, a 35% equity interest in an unconsolidated equity-method investment that holds two properties, a 20% equity interest in an unconsolidated equity-method investment that holds two properties, a 10% equity interest in an unconsolidated equity-method investment that holds nine properties, a 10% equity interest in an unconsolidated equity-method investment that holds six properties and a 15% equity interest in an unconsolidated equity-method investment that holds 14 properties (collectively, our “Equity-Method Investments”). As used in this report, the “Company,” “we,” “us” and “our” refer to Summit Healthcare REIT, Inc. and its consolidated subsidiaries, except where the context otherwise requires.

Our revenues are comprised largely of tenant rental income from our seven real estate properties, including rents reported on a straight-line basis over the initial term of each tenant lease, and acquisition and asset management fees resulting from our Equity-Method Investments. We also receive cash distributions from our Equity-Method Investments, which are included in net cash provided by operating activities and net cash provided by investing activities in our condensed consolidated statements of cash flows. Our growth depends, in part, on our ability to continue to raise joint venture equity or other equity, acquire new healthcare properties at attractive prices, negotiate long-term tenant leases with sustainable rental rate escalation terms and control our expenses. Our operations are impacted by property-specific, market-specific, general economic, regulatory and other conditions.

We believe that continued investing in senior housing facilities is accretive to earnings and stockholder value. Senior housing facilities include independent living facilities (“IL”), skilled nursing facilities (“SNF”), assisted living facilities (“AL”), memory care facilities (“MC”) and continuing care retirement communities (“CCRC”). Each of these types of facilities focuses on different segments of the senior population.

Coronavirus (COVID-19)

Since first being reported in December 2019, COVID-19 has spread globally, including to every state in the United States and more than 175 countries. It has been reported that COVID-19 appears most dangerous for seniors, and the mortality rate increases with age. Some of the properties in which we have an interest are located in states that are currently seeing a high level of COVID-19 infections, including California, Texas and Arizona. The occupancy at our properties could significantly decrease if COVID-19 or another public health outbreak results in resident deaths, early resident move-outs, a delay accepting new residents due to quarantines or otherwise, or potential residents postpone moving to a senior housing facility. A decrease in occupancy or increase in costs is likely to have a material adverse effect on the ability of our tenants to meet their financial and other contractual obligations to us, including the payment of rent, as well as on our results of operations. In addition, actions our tenants take to address COVID-19 are expected to materially increase their operating costs, including costs related to enhanced health and safety precautions among other measures, which could have a material adverse effect on the ability of our tenants to meet their financial and other contractual obligations to us, including the payment of rent. Furthermore, infections at our facilities could lead to material increases in litigation costs for which our tenants, or possibly we, may be liable. While we have not seen a material impact on rental revenue from any of our consolidated properties or debt payments from borrowers on notes receivable, or the operating results of our Equity-Method Investments for the period ended June 30, 2020, we are currently working with one tenant to address a partial rent payment default as a result of a material decrease in occupancy at the facility due to COVID-19. Based upon need and request, the Company may provide rent relief, either in the form of a temporary rent reduction to be paid back over time or permanent abatement of rent for a specific time period. Additionally, some of our Equity-Method Investment tenants have also experienced decreased occupancy and increased operating costs related to COVID-19 , however, this has not had a material effect on our operations. If these types of developments continue or increase in severity, or arise with more frequency, they are likely to have a material adverse effect on our business and results of operations. The extent to which COVID-19 could impact our business and results of operations will depend on future developments, which are highly uncertain and cannot be predicted with confidence, including the duration of the outbreak, new information that may emerge concerning the severity of COVID-19 and the actions taken to contain COVID-19 or treat its impact, among others.

Summit Equity-Method Investment Portfolio Properties

We continue to believe that raising institutional joint venture equity to make acquisitions will be accretive to shareholder value. Our sole source of equity since 2015 has been institutional funds raised through a joint venture structure and accounted for as equity-method investments. We still believe this is a prudent strategy for growth; however, in the future, we may raise additional equity capital through alternative methods if warranted by market conditions.

(1) Net operating income ("NOI") is a non-GAAP supplemental measure used to evaluate the operating performance of real estate properties. We define NOI as total rental revenues less property operating costs. NOI excludes acquisition and asset management fees, interest income from notes receivable, general and administrative expense, depreciation and amortization, income from equity-method investees, and other income, interest expense. We believe NOI provides investors relevant and useful information because it measures the operating performance of the REIT's real estate at the property level on an unleveraged basis. We use NOI to make decisions about resource allocations and to assess and compare property-level performance. We believe that net income (loss) is the most directly comparable GAAP measure to NOI. NOI should not be viewed as an alternative measure of operating performance to net income (loss) as defined by GAAP since it does not reflect the aforementioned excluded items. Additionally, NOI as we define it may not be comparable to NOI as defined by other REITs or companies, as they may use different methodologies for calculating NOI.

The net decrease in general and administrative expenses of approximately $0.6 million for the three months ended June 30, 2020 compared to the three months ended June 30, 2019 is primarily due to executive bonuses that were paid in 2019.

The net increase in income from equity-method investees of approximately $0.2 million for the three months ended June 30, 2020 compared to the three months ended June 30, 2019 is primarily due to the following transactions in the three months ended June 30, 2019: (i) the refinancing of the FPH JV properties and the related write off of fees and deferred financing costs from the previous lender; (ii) the termination of two leases in our JV properties; and (iii) the write off of certain costs associated with those lease terminations. There were no significant transactions in the three months ended June 30, 2020.

Total rental revenues for our properties includes rental revenues and tenant reimbursements for property taxes and insurance. Property operating costs include insurance, property taxes and other operating expenses. Net operating income decreased $0.4 million for the six months ended June 30, 2020 compared to the six months ended June 30, 2019 primarily due to the sale of our four NC Properties (see Note 13 to the accompanying Notes to Condensed Consolidated Financial Statements).

The net decrease in general and administrative expenses of $0.9 million is primarily due to a decrease in executive bonuses of approximately $0.6 million, other payroll and stock-based compensation of approximately $0.2 million, and legal and other professional expenses of approximately $0.1 million.

The net decrease in depreciation and amortization and interest expense for the six months ended June 30, 2020 compared to the six months ended June 30, 2019 is primarily due to the sale of our four NC Properties (see Note 13 to the accompanying Notes to Condensed Consolidated Financial Statements).

The net increase in income from equity-method investees of approximately $0.1 million is primarily due to the following transactions in the six months ended June 30, 2019: (i) refinancing of the FPH JV properties and the related write off of fees and deferred financing costs from the previous lender; (ii) the termination of two leases in our JV properties; and (iii) the write off of certain costs associated with those lease terminations.

The decrease in the gain on sale of real estate properties is due to the sale of our four NC Properties (see Note 13 to the accompanying Notes to Condensed Consolidated Financial Statements) in 2019.

Liquidity and Capital Resources

As of June 30, 2020, we had approximately $14.9 million in cash and cash equivalents on hand. Based on current conditions, we believe that we have sufficient capital resources to sustain operations.

Going forward, we expect our primary sources of cash to be rental revenues, joint venture distributions, and acquisition and asset management fees. In addition, we may increase cash through the sale of additional properties, which may result in the deconsolidation of properties we already own, or borrowing against currently-owned properties. For the foreseeable future, we expect our primary uses of cash to be for funding future acquisitions, investments in joint ventures, operating expenses, interest expense on outstanding indebtedness and the repayment of principal on loans payable. We may also incur expenditures for renovations of our existing properties, making our facilities more appealing in their market.

We continue to pursue options for repaying and/or refinancing debt obligations with long-term, fixed rate U.S. Department of Housing and Urban Development ("HUD")-insured loans. In September 2018, April 2019 and April 2020, we refinanced three outstanding loans with HUD-insured loans that mature between 2053 and 2055, respectively. Additionally, in 2017, as part of our responsibilities under the operating agreements as the manager of our Equity-Method Investments, we refinanced seven existing loans of our Equity-Method Investments with HUD-insured loans.

Our liquidity will increase if cash from operations exceeds expenses, we receive net proceeds from the sale of whole or partial interest in a property or properties, or refinancing results in excess loan proceeds. Our liquidity will decrease as proceeds are expended in connection with our acquisitions and operation of properties.

CARES Act

On March 27, 2020, the President signed into law the Coronavirus Aid, Relief, and Economic Security Act (the "CARES Act"). The CARES Act is a stimulus package that provides various forms of relief through, among other things, grants, loans and tax incentives to certain businesses and individuals. In particular, the CARES Act created an emergency lending facility known as the Paycheck Protection Program (PPP), which is administered by the Small Business Administration (SBA) and provides federally insured and, in some cases, forgivable loans to certain, eligible businesses so that those businesses can continue to cover certain of their near-term operating expenses and retain employees. We did not obtain a PPP loan. We have evaluated the CARES Act and determined that there was no impact to the Company for the six months ended June 30, 2020. We will continue to evaluate and monitor the CARES Act, and any new COVID-19-related legislation to determine the ultimate impact and benefits, if any, to the Company.

Credit Facilities and Loan Agreements

As of June 30, 2020, we had debt obligations of approximately $47.7 million. The outstanding balance by loan agreement is as follows (see Note 4 to the accompanying Notes to Condensed Consolidated Financial Statements for further information regarding our financing arrangements):

- Capital One Multifamily Finance, LLC (HUD-insured) – approximately $10.4 million maturing September 2053
- ORIX (HUD-insured) – approximately $37.3 million maturing from September 2039 through April 2055

Distributions

The Company declared a cash distribution of approximately $1.5 million in November 2018, which was paid on January 31, 2019 to shareholders of record as of January 15, 2019. No distributions were declared in 2019.

Funds from Operations ("FFO")

FFO is a non-GAAP supplemental financial measure that is widely recognized as a measure of REIT operating performance. We compute FFO in accordance with the definition outlined by the National Association of Real Estate Investment Trusts ("NAREIT"). NAREIT defines FFO as net income (loss), computed in accordance with GAAP, excluding gains or losses from sales of property, plus depreciation and amortization and after adjustments for unconsolidated partnerships and joint ventures.

Our FFO may not be comparable to FFO reported by other REITs that do not define the term in accordance with the current NAREIT definition or that interpret the current NAREIT definition differently than we do. We believe that FFO is helpful to investors and our management as a measure of operating performance because it excludes depreciation and amortization, gains and losses from property dispositions, impairments and extraordinary items, and as a result, when compared period to period, reflects the impact on operations from trends in occupancy rates, rental rates, operating costs, development activities, general and administrative expenses, and interest costs, which is not immediately apparent from net income. Historical cost accounting for real estate assets in accordance with GAAP implicitly assumes that the value of real estate diminishes predictably over time. Since real estate values have historically risen or fallen with market conditions, many industry investors and analysts have considered the presentation of operating results for real estate companies that use historical cost accounting alone to be insufficient. As a result, our management believes that the use of FFO, together with the required GAAP presentations, provide a more complete understanding of our performance. Factors that impact FFO include start-up costs, fixed costs, delays in buying assets, lower yields on cash held in accounts pending investment, income from portfolio properties and other portfolio assets, interest rates on acquisition financing and operating expenses. FFO should not be considered as an alternative to net income (loss), as an indication of our performance, nor is it indicative of funds available to fund our cash needs, including our ability to make distributions.

The following is the reconciliation from net (loss) income applicable to common stockholders, the most direct comparable financial measure calculated and presented with GAAP, to FFO for the three and six months ended June 30, 2020 and 2019:

	Three months ended June 30,		Six months ended June 30,

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

Not applicable.

Item 4. Controls and Procedures.

We maintain disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities and Exchange Act of 1934, as amended (the "Exchange Act")) that are designed to ensure that information required to be disclosed in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our senior management, including our President (Principal Executive Officer) and our Chief Financial Officer (Principal Financial Officer), to allow timely decisions regarding required disclosure. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Our President (Principal Executive Officer) and Chief Financial Officer (Principal Financial Officer) evaluated the effectiveness of our disclosure controls and procedures and concluded that the disclosure controls and procedures were effective as of the end of the period covered by this report.

There have been no changes in our internal control over financial reporting during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II — OTHER INFORMATION

Item 1. Legal Proceedings.

On April 1, 2014, CRA and Cornerstone Ventures, Inc. filed a complaint in the Superior Court of California for the County of Orange-Central Justice Center, Case No. 30-2014-00714004-CU-BT-CJC, naming the Company, its former directors, one of its officers and one of its former officers as defendants, seeking declaratory and injunctive relief and compensatory and punitive damages. On September 17, 2014, we filed a First Amended Cross-Complaint seeking compensatory damages and an accounting pursuant to Sections 10(c)(i) and 17(c)(ii) of the Advisory Agreement and including any monies Plaintiffs and Terry Roussel directly or indirectly received from or paid to the Company. On February 22, 2018, the action was assigned to a different trial judge. On May 29, 2018, the Company filed a motion for terminating and monetary sanctions against CRA, Cornerstone Ventures, Inc. and their counsel, Winget Spadafora & Schwartzberg. On November 30, 2018, the new trial judge vacated the trial date, pending resolution of the Company's motion for terminating and monetary sanctions against CRA and Cornerstone Ventures, Inc. and denied the Company's motion for sanctions against Winget Spadafora & Schwartzberg. On February 13, 2019, the trial judge held another hearing on the Company's motion for terminating and monetary sanctions and indicated that it intended to grant the Company's motion for terminating sanctions and award the Company monetary sanctions. On March 14, 2019, the Court entered an Order and Judgment granting the Company's motion for terminating sanctions, awarding the Company monetary sanctions in the amount of $588,672, and dismissing CRA and Cornerstone Ventures Inc.'s Complaint with prejudice. On May 21, 2019, CRA and Cornerstone Ventures, Inc. filed a notice of appeal from the Judgment and, on June 3, 2019, the Company filed a notice of cross-appeal from the Judgment. On July 9, 2019, the California Court of Appeal, Fourth District dismissed CRA and Cornerstone Ventures, Inc.'s appeal with prejudice. The briefing to the Court of Appeal, Fourth District on the Company's appeals against CRA, Cornerstone Ventures, Inc and Winget Spadafora & Schwartzberg was completed on April 27, 2020, and on April 28, 2020, the Company filed its request for oral argument on its appeals.

In September 2015, a bankruptcy petition was filed against Healthcare Real Estate Partners, LLC ("HCRE") by the investors in Healthcare Real Estate Fund, LLC and Healthcare Real Estate Qualified Purchasers Fund, LLC (collectively, the "Funds"). HCRE did not timely respond to the involuntary petition and the Bankruptcy Court entered an Order of Relief making HCRE a debtor in bankruptcy. As a result, HCRE was removed as manager under the Funds' operating agreement. Thereafter the Company became the manager of the Funds and purchased the investors' interests in the Funds for approximately $0.9 million. Following the subsequent dismissal of the involuntary bankruptcy petition filed against it, HCRE filed a motion for attorneys' fees and damages and a separate complaint for violation of the automatic stay against the petitioning creditors and the Company in the United States Bankruptcy Court of the District of Delaware. The Bankruptcy Court granted a motion to dismiss the complaint for violation of the automatic stay filed jointly by the petitioning creditors and us, and dismissed the complaint with prejudice. HCRE appealed the Bankruptcy Court's decision to the United States District Court for the District of Delaware which affirmed the Bankruptcy Court's dismissal of the complaint in a decision dated September 9, 2018. On October 11, 2018, HCRE appealed the District Court's decision affirming the Bankruptcy Court's dismissal of the complaint to the United States Court of Appeals for the Third Circuit. On October 22, 2019, the Third Circuit granted HCRE's appeal, reversing the District Court and holding that HCRE could assert the adversary complaint seeking damages for violation of the automatic stay. The Company filed a Petition for Rehearing on November 5, 2019 asserting that HCRE is not entitled to assert a claim for damages for violation of the automatic stay. This Petition was denied and the mandate was issued sending the matter back to the Bankruptcy Court. The Bankruptcy Court has not taken any action on the matter since the Third Circuit remanded the case. We believe that all of HCRE's remaining alleged claims are without merit and will vigorously defend ourselves.
